

# LEADERSHIP: REFLECTIONS ON 2020

CASE for Kids is launching a Leadership course! This companion to the Leadership Symposium is a online, self-paced learning resource for current and aspiring OST leaders to learn more about effective leadership in a constantly evolving world. It will also provide an opportunity for learners to connect with other leaders and build community. This course is meant to encourage reflection and individual growth.

We invite you to join us for the first module which will focus on leaders, leadership styles and what it all means when everything changes. You will receive 3 credit hours upon completion.

To learn more and register for the course:
